Catchment area

Holly Park is a popular and oversubscribed community primary school (including a nursery) serving a suburban, residential area, consisting of older style houses, flats and a newer estate built in the late 1990's. Children at Holly Park come from a mix of owner occupier, privately rented and council rented homes. A wide number of cultures, faiths and ethnic groups make up the Holly Park community, and this is a distinctive strength of our school. Although the majority of our pupils come from an area close to the school, we have a number of families who travel from further away. These are usually families that have moved or have been rehoused away from our catchment area, but kept their children at Holly Park to ensure a more consistent education. Some of our support staff live in the Friem Barnet area, but most of the teaching staff live further afield.

Expansion plans or changes to student school times

Bulge classes in the current Year 3 and 5 have led to families travelling from further away, with less opportunity for pupils to walk.

Other information

Holly Park Primary School is located on Bellevue Road in Friern Barnet, south of Friern Barnet Road, which is heavily trafficked. Bellevue Road runs past the main gates of the school and is a through road, junctioning with Friern Barnet Road to the north and Crescent Road to the south. Both of these adjoining roads are heavily trafficked and Crescent Road itself is used as a driving instruction area by local driving schools, adding to congestion in the school area. Crescent Road and Bellevue Road are often used by vehicles as a 'rat run' to avoid traffic queues. The properties in the area are mainly terraced which results in cars parking along the roadside. The layout of the roads in the area is such that there are a number of junctions that need to be crossed on each road. The school is less than a quarter of a mile from the entrances to two other schools which leads to extra congestion in the area. The pedestrian entrance used by the pupils is clearly marked. The car park entrance has been moved further down Bellevue Road so it is now well away from the pedestrian entrance. The school has two entrances facing Bellevue Road, these are the driveway into the car park and the pupils' and pedestrian entrance. Yellow zigzags showing 'School keep clear' are marked on the road by this entrance (although very faded in places), with concrete bollards to keep children safer on the pavement. The school has invested in A frames reminding parents not to park on the zig-zag lines.

2 Road Safety: Council request - speed of traffic

Date identified: 10 March 2016

Details

Speed of cars driving along Bellevue Road and other local roads during school drop off and collection times. Local Authority conducting 20 mph consultation and feasibility study.

Category: Road Safety

Possible solutions: 20 mph zone in place around the school.

2 Parking: Council request – parking on corners

Date identified: 24 March 2016

Details

Children and parents are having difficulty crossing at junctions near to the school due to parked cars restricting their sight lines at the corners of Holly Park Road / Bellevue Road and also at Bellevue Road / The Crescent.

Category: Parking

Possible solutions: Re-paint yellow lines as needed Change single yellow lines to double Extend yellow lines so cars are unable to park so close Increase traffic warden patrols

2 Parking: Council request - extend yellow lines

Date identified: 30 March 2016

Details

Parking close to the corner of Bellevue Road / The Crescent makes the junction dangerous. Extending the yellow lines for 2 metres further into Bellevue Road would encourage drivers to park further away from the junction enabling better sight lines for pedestrians and other drivers.

Category: Parking

Possible solutions: Extend yellow lines for 2 metres on both sides of Bellevue Road at its junction with The Crescent

5 Parking: Council request - double yellow lines

Date identified: 30 March 2016

Details

At the junction of Bellevue Road / Holly Park Road the yellow lines on the corners have worn away considerably, and in some places completely. There is significant parking at and near these corners causing an unnecessary hazard.

Category: Parking

Possible solutions: Re-paint lines Change single yellow lines to double yellow lines

2 Local Community: Council request - Give way road markings

Date identified: 14 April 2016

Details

Give Way road markings at junction of Bellevue Road / Holly Park Road N11 have worn away almost completely making the junction dangerous

Category: Local Community

Possible solutions: Re-paint the lines to make them more prominent

Other: Council request - zig zag cameras

Date identified: 15 April 2016

Details

Cars travelling in two directions at the start and end of the school day makes the area outside the school grid locked on occasions

Category: Other

Possible solutions: We are waiting for the installation of cameras to monitor stopping on School Keep Clear markings. We hope that this will improve traffic flow.

1 Parking: Council request - Faded School Keep Clear markings

Date identified: 15 April 2016

Details

The School Keep Clear markings outside the school are fading and re-painting them would make them more prominent to drivers.

Category: Parking

Student led project

Date applied for: 19 May 2016

Details

We feel that our school has been very pro-active in using pupil voice to drive travel plan initiatives forward. This year we have appointed JTAs who now take the lead on all travel plan activities and they are supported by our School Council, Eco-Council and Healthy Living Council. Pupils are given the opportunity to present ideas for discussion and are active in raising issues. We have recently been awarded the Bronze level of Healthy Schools and this was also supported by our pupil voice. The pupils support the updating and writing of the travel plan by the Travel Plan Champion. They consider the initiatives and activities, suggesting and researching sources of evidence and discussing what we have done. Examples of JTA and other pupil led activities include - School Council - safety in our school. Led to conversations about road safety. Designing, modelling for and producing our own zig-zag banners. Eco-Council - suggestion and completion of an air quality study Healthy Living Council - asked for Bikeability Level 1 to be introduced for Year 4 children JTAs - suggested a walk around the local area to identify hazards, and possible actions for the travel plan. JTAs - completed a survey in response to request from Barnet Council for consultation on a 20mph zone around the school. JTAs - held assemblies, judged competitions and promoted the travel plan via a display board. JTAs - suggested a trip around London to compare methods of public transport and their advantages/disadvantages. Have begun research and will complete the trip in the Summer Term. JTAs - written pieces for a newsletter for local residents, and will deliver it JTAs and Eco-Council members-worked alongside Barnet Council staff on an anti-idling campaign to encourage parents to switch off their engines whilst waiting

Additional comments

Submitting to Barnet for checking. We sent a survey link to parents and I believe at least a couple filled it in. Connie at Barnet was unable to transfer the results earlier as there was a glitch in the system, but I don't know if this is now sorted. If so, this is another consultation that has been completed.
